

Medical Insurance Requirements

All students who have an F-1 visa are automatically enrolled in the student medical insurance plan that has been selected by Georgia Tech unless they have an approved waiver. The cost of the plan is listed on our website <https://esl.gatech.edu/intensive-english-program/program-dates>, with fees charged to each student's Georgia Tech account and paid at registration. You will receive an insurance card which you should carry with you at all times.

Insurance is also available for non-F-1 visa holders who are taking at least two IEP classes per session. Information on the voluntary plan can be found at <https://www.uhcsr.com/school-page>.

Students must enroll in the voluntary plan by the end of week two. Students signing up for SHIP voluntarily should also consider paying for SHC access IF they want to be able to visit the SHC and are taking fewer than 4 courses.
